Emmy winner Downton Abbey resumes the story of aristocrats and servants of Downton Abbey during the tumultuous World War I era. The international hit portrays the loves, feuds and sacrifices of a glittering culture thrown into crisis.

##### Great Performances: The Phantom of the Opera at the Royal Albert Hall

3/4/12                                      7:00 p.m.                                      60 minutes

"The Phantom of the Opera at the Royal Albert Hall," a fully staged, lavish 25th-anniversary mounting of Andrew Lloyd Webber's long-running Broadway and West End extravaganza, features Ramin Karimloo and Sierra Boggess with a host of special guest stars at the conclusion.

#### 2. ENVIRONMENT

##### *Inside Natures Giants: Great White Shark*

2/1/12                                      8:00 p.m.                                      60 Minutes

The experts travel to South Africa to dissect a 15-foot-long great white shark. Comparative anatomist Joy Reidenberg uncovers the amazing array of senses the shark possesses, including the ability to detect the electro-magnetic field given off by other creatures. Veterinary scientist Mark Evans investigates the origins of the shark's infamous killing bite, and evolutionary biologist Richard Dawkins explains how sharks' teeth and jaws evolved from their outer skin and gill arches. Finally, the

experts ask whether the shark deserves its reputation as a man killer.

*Alone in the Wilderness*

3/11/12                                      5:30 p.m.                                      90 Minutes

To live in a pristine land unchanged by man...to roam a wilderness through which few other humans have passed... to choose an idyllic site, cut trees and build a log cabin...to be a self-sufficient craftsman, making what is needed from materials available...to be not at odds with the world, but content with one's own thoughts and company... Thousands have had such a dream, but Richard Proenneke lived them. He found a place in Alaska, built a cabin, and stayed to become part of the country. This is a simple account of the day-to-day explorations and activities he carried out alone, and the constant chain of nature's events that kept him company.

*Into the Deep: America, Whaling and the World*

3/20/12                                      8:00 p.m.                                      60 Minutes

This program explores the history of the American whaling industry from its 17th century origins in drift and shore whaling off the coast of New England and Cape Cod through the golden age of deep-ocean whaling and its demise in the decades after the Civil War.

**3. HEALTH CARE AND SCIENCE**

*Frontline*

1/24/12                                      10:00 p.m.                                      60 Minutes

Every day, about 7,000 people die in America. In more than 1,300 counties, elected coroners, many with no medical or scientific background, are responsible for determining what happened. In "Post Mortem," correspondent Lowell Bergman examines death investigation in America with ProPublica, NPR and the investigative-reporting program at the University of California at Berkeley.

*Journey of the Universe*

2/4/12                                      10:00 pm                                      90 Minutes

This dramatic and expansive film re-imagines the universe story and reframes the human connection to the cosmos. Created by a renowned team of scientists, scholars and award-winning filmmakers, it was filmed on the Greek island of Samos, the birthplace of Pythagoras. The host is evolutionary philosopher Brian Thomas Swimme, whose stories awaken us to the beauty and complexity of our planet.

*The Blood Sugar Solution with Dr. Mark Hyman*

3/8/12

8:00 pm

120 Minutes

In this 90-minute public television special, Dr. Mark Hyman explains what “diabetes” is, outlines the underlying causes that drive the problem, and provides a personalized, 4-step plan to help you overcome diabetes. He explains how we can all take back our health as individuals, as a community, and as a society.

The program will radically change the way you think about your body, your lifestyle, and the power you have to change your health. Dr. Hyman identifies the seven keys to achieving wellness—optimize your nutrition, balance your hormones, cool off inflammation, fix your digestion, enhance detoxification, boost your energy metabolism, and calm your mind—and outlines the steps needed to personalize your approach to healing. His six-week action plan will help viewers identify and address the unique causes of their own health and weight issues, and he offers exercise advice, stress-reducing strategies, a menu plan with delicious recipes, and much more.
